PACKING SHEET

ART. 403**Denomination: GLASS with graphite**

TYPE: *Diagonally braided from high-quality textured glass fibre, impregnated yarn by yarn with pure graphite powder and a corrosion inhibitor. The graphiting process reduces fretting of the glass fibre, this prevents the glass fibres from abrading and damaging each other under pressure. It is a dense, yet resilient, packing for static applications.*

APPLICATIONS: *It is predominantly a valve packing, but can also be recommended for man holes, tank lids and other static applications with water, oils, alkaline solutions, weak acids, chemical products. It is a very strong and durable packing for static applications at high temperatures and pressures.*

NOT SUITABLE FOR: *Concentrated acids and lyes, steam at temperature above 200°C*

TEMPERATURE	-temp.	+ temp	
(°C)	—	+ 550	
PRESSURE	rot.	alt.	stat.
(BAR)	—	—	150
STEAM	200
